This diagram illustrates the exploded view of a hydraulic system assembly. The components are numbered as follows:

- 1**: A bracket grouping the lower right assembly, including parts 21, 22, 23, 24, 25, 26, 27, 28, 29, and 30.
- 2**: A large cylindrical hydraulic cylinder.
- 3**: A rectangular hydraulic valve or manifold.
- 4**: A black solenoid or actuator.
- 5**: A black solenoid or actuator.
- 6**: A small black component, possibly a check valve or filter.
- 7**: A black component, possibly a check valve or filter.
- 8**: A black component, possibly a check valve or filter.
- 9**: A black component, possibly a check valve or filter.
- 10**: A black component, possibly a check valve or filter.
- 11**: A black component, possibly a check valve or filter.
- 12**: A black component, possibly a check valve or filter.
- 13**: A black component, possibly a check valve or filter.
- 14**: A black component, possibly a check valve or filter.
- 15**: A black component, possibly a check valve or filter.
- 16**: A black component, possibly a check valve or filter.
- 17**: A black component, possibly a check valve or filter.
- 18**: A black component, possibly a check valve or filter.
- 19**: A black component, possibly a check valve or filter.
- 20**: A black component, possibly a check valve or filter.
- 21**: A black component, possibly a check valve or filter.
- 22**: A black component, possibly a check valve or filter.
- 23**: A black component, possibly a check valve or filter.
- 24**: A black component, possibly a check valve or filter.
- 25**: A black component, possibly a check valve or filter.
- 26**: A black component, possibly a check valve or filter.
- 27**: A black component, possibly a check valve or filter.
- 28**: A black component, possibly a check valve or filter.
- 29**: A black component, possibly a check valve or filter.
- 30**: A black component, possibly a check valve or filter.
